

Artikkel Nr      **11241**      **Strappesystem dobbel JT-D-ST 400V**

Machine design criterion:  
The conveyors are designed to transport cartons to and from a strapping machine

Machine measurements:

- Overall Length: 1040mm/1550mm
- Overall Width: 700mm – included the el.motor and gear.
- Band Width: 380mm
- Overall Height: Adjustable – 950± 50mm

Machine specifications:

- Capacity: 14 cycles/min.
- Carton size: Adjustable – normally width: 400mm length: 600mm
- Power consumption: 0,75Kw
- Voltage: 11237: 3x400VAC 50Hz

• Materials:

- o Steel quality: Stainless steel AISI 304
- o Mechanical components: Corrosion resistant versions, wherever possible, from reliable suppliers.
